

<p>WiFi smart socket Instruction</p> <p>Dear Users: Thank you very much for choosing our company's products and services. We hope our products will bring convenience and comfort to your life.</p> <p>With this WiFi smart socket, you can easily control your home appliances remotely, or by echo, such as lights, coffee machines, humidifiers, and so on. Installation and usage of the product please read this instructions carefully.</p> <p>WiFi smart socket Instruction</p> <p>I. Product Features</p> <ul style="list-style-type: none"> Support Wi-Fi 2.4GHz (Not 5GHz) 8002.11b/g/n wireless network. Connect quickly to the app, and Amazon echo. Support remote/local control through 2G/3G/4G/Wi-Fi network. <p>II. Product Features</p> <ul style="list-style-type: none"> Voltage: AC 100~240V Current: 15A Max power output power: 2000W Rated frequency: 50/60Hz Wi-Fi frequency: 2.4GHz Product size: 112mmx40mm Working environment: Indoor Working temperature: -10~45°C Humidity: 80% Security type: WEP64/WEP128/TKIP /CCMP(AES) Security mechanism: WEP/TKIP/AES <p>III. Product Features</p> <p>Your smart phone or tablet has connected to a 2.4G wifi with internet. You have the correct wi-fi password. Your smart phone or tablet must have access to APP Store.</p> <p>Works with Amazon alexa</p> <p>01</p> <p>02</p> <p>03</p> <p>04</p> <p>05</p> <p>06</p> <p>07</p> <p>08</p> <p>09</p> <p>10</p> <p>11</p>	<p>WIFI smart socket Instruction</p> <p>Dear Users: Thank you very much for choosing our company's products and services. FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
